Skills

C Language , C++ , React Js , React Redux , Node js , Express & MongoDB

Html CSS JavaScript , Bootstrap , SQL.

Projects

FarmaSite / React js , Bootstrap , Node js , MongoDB

- Farmasite is a website designed for farmers to start their own business where they can sell their crop online
- Led a team of four to complete this application from scratch , it is developed using react and node js.
- Leveraged Bootstrap, Tailwind CSS, React Router DOM, React Hook Form, Axios, and React hooks for a visually appealing interface, seamless navigation, efficient form management, and asynchronous data fetching.

Mentor-Mentee Matching System / React Js , Node js.

- Mentor-Mentee matching system is an online website which is used to match students with a mentor based on their interests and career performance.
- It is Developed using React on the front-end and Node js on the backend
- I have developed the user interface for user registration and login using react-hook-form library.
- I successfully added all the required validations , including user authorization and authentication using JWT (JSON web Token).

Sinima / Html and CSS

- Sinima is a movie recommendation website which has movie suggestions of different genres and different languages.
